Product Information. The CF Architectural - Horizontal Series, formerly known as eco-FICIENT® Grand H, allows designers to mix multiple panel widths and colors on the same wall.

Flush Seam Metal Wall Panels - Horizontal Insulated Wall

Metal fabrication is the building of metal structures by cutting, bending, and assembling processes.. It is a value added process that involves the creation of machines, parts, and structures from various raw materials. A fabrication shop will bid on a job, usually based on the engineering drawings, and if awarded the contract will build the product.. Large fab shops employ a multitude of ...

Bending is a manufacturing process that produces a V-shape, U-shape, or channel shape along a straight axis in ductile materials, most commonly sheet metal. Commonly used equipment include box and pan brakes, brake presses, and other specialized machine presses. Typical products that are made like this are boxes such as electrical enclosures and rectangular ductwork

The ESM defines the minimum technical requirements for the design, fabrication, construction, commissioning, repair, and replacement of both new and existing systems, structures, and components (SSCs), including both maintenance and modification, for programmatic and facility work. They do not apply retroactively (forcing changes to existing SSCs that are not being touched).
