The E6400 I ordered from Blair Technology was listed "Used - Like New". The unit I received was refurbished (according to the tag on the underside) and had a few nicks on the speaker grilles (on either side of the keyboard) that were easily covered up with a Sharpie.

Dell Latitude E6400 Laptop - Windows Professional

Computers with the new 9th Generation Intel® Core™,¢ desktop processors are packed with performance for mainstream and competitive gamers. With up to 8 cores, 16 threads, 5.0 GHz, and 16 MB cache the 9th Generation Intel® Core™,¢ desktop processors are built for gaming. Overall system performance ...

Intel® Core™,¢ Processor Family

Overview and product type. The Dell Latitude is a laptop family from Dell Computers, intended for business use. By contrast, the Dell Inspiron is aimed at the consumer market and its specifications change regularly. Whereas Inspiron may change vendors or components several times over the course of a single model, the Latitude line generally retains identical components throughout its production.

Waters Empower 3

Conroe is the code name for many Intel processors sold as Core 2 Duo, Xeon, Pentium Dual-Core and Celeron. It was the first desktop processor to be based on the Core microarchitecture, replacing the NetBurst microarchitecture based Cedar Mill processor. It has product code 80557, which is shared with Allendale and Conroe-L that are very similar but have a smaller L2 cache.
