Further Observations on the Bacteriology of Jute Retting M. JALALUDDIN 1 Bacteria capable of retting jute  
are present in pond water, in the soil of jute fields, and on the surface of jute plants.

**Further observations on the bacteriology of jute retting**

Further observations on associated cases, in electric induction, of current and static effects Further  
observations on the food of seals Observations on the Quantity of Rain at Different Heights

**Further Observations of the Electric Charge on Rain - [PDF**

Further observations on the fine structure of the haptonema in prymnesium parvum. The tip structure is  
unexpectedly simple, with the haptonema cavity interposed between the rounded apex of the core and the  
external wall of the organelle. The base has been shown to be unexpectedly complex in that the number of  
core fibres,...
