The economics of global warming concerns the economic aspects of global warming; this can inform policies that governments might consider in response. A number of factors make this a difficult problem from both economic and political perspectives: it is a long-term, intergenerational problem; benefits and costs are distributed unequally both within and across countries; and scientific and ...

We view Donald Trump's ascendency to the Presidency of the U.S. as confirmation of a political and economic paradigm shift that started with Brexit but is likely to continue for the foreseeable future, including elections across Europe in 2017. Consistent with this view, we believe that there are four major potentially secular changes that all investment professionals must consider: fiscal ...

There are three excellent reviews of supply chain contract analysis prepared by Cachon (2003), Lariviere (1998) and Tsay et al. (1998). These three reviews offer different perspectives in the following sense: Tsay et al. (1998) provide a qualitative overview of various types of contracts when the demand is deterministic and random; Lariviere (1998) shows quantitative analyses of different types ...

Global citizenship is the idea that all people have rights and civic responsibilities that come with being a member of the world, with whole-world philosophy and sensibilities, rather than as a citizen of a particular nation or place. The idea is that one's identity transcends geography or political borders and that responsibilities or rights are derived from membership in a broader class ...
