The World Academy of Art & Science is a global network of eminent scientists and diplomats established in 1960 to address global challenges confronting humanity. The power of a network is defined by the number and quality of its members, their interrelationships and commitment to a common cause.

January 2018 | World Academy of Art & Science

This text is an early draft for a general introductory textbook in computer science—a Java-based version of my 1995 textbook The Art and Science of C. My hope is that I can use much of the existing material in writing the new book, although quite a bit of the material and overall organization have to change.

The Art and Science of - Reed College

The Art & Science of Billboard Improvement was originally published in Processed World magazine. We wish to thank the PW staff for their help in making this document possible.
