how one can do algebra by taking x to be just a number, and school algebra then becomes generalized arithmetic, literally. Formal algebra in the sense of $R[x]$ can be left to a later date, e.g., a second course in school algebra. Section 1 is thus entirely elementary, and is nothing more than a direct extension of arithmetic.

Introduction to School Algebra [Draft] - UCB Mathematics

High School Algebra Worksheets. We start with the concept of expressions. A big focus is how to use expressions in practical situations to help you solve problems. We then transition to inequalities and how expressions fit into that window. We have you begin to create your own equations to solve problems in complex situations.
