Video art typically appears in two basic varieties: single-channel and installation. In single-channel works, a video is screened, projected or shown as a single series of images. Installations typically comprise either an environment made up of several distinct pieces of video screened simultaneously, or a combination of video with Assemblage, or Performance art.

About A History of Video Art. A History of Video Art is a revised and expanded edition of the 2006 original, which extends the scope of the first edition, incorporating a wider range of artists and works from across the globe and explores and examines developments in the genre of artists' video from the mid 1990s up to the present day. In addition, the new edition expands and updates the discussion of theoretical concepts and ideas which underpin contemporary artists' video.
