### **Stress hormones in health and illness: The roles of work**

Hormones and behavior affect gender identity in significant ways, each having a distinct purpose and outcome. As hormones affect one's body biologically and physically, behavior is constructed from environmental stimuli.

### **The Effects of Hormones and Behavior on Gender Identity**

Only 5 children's hospitals in the United States have clinics dedicated to caring for young people with gender identity concerns. Our doctors have special training in adolescent medicine, hormones (endocrinology) and emotional health. This team approach is called multidisciplinary care.

## **Gender Clinic - [seattlechildrens.org](http://seattlechildrens.org)**

Bornstein, a trans woman who finds gender deeply problematic, sums up this resistance nicely in her 1995 book title, *Gender Outlaw: On Men, Women and the Rest of Us*<sup>1</sup>. It is commonly argued that biological differences between males and females determine gender by causing enduring differences in capabilities and dispositions.

## **CHAPTER 1: AN INTRODUCTION TO GENDER**

Wikis > Hormones and Gender Differences Attempting to understand the role of hormones in creating gender differences in behaviour, scientists have singled out testosterone and oestrogen as the “culprits”<sup>TM</sup> for gender-specific behavioural traits, ranging from sexual impulses to aggressive and competitive natures.
