to market processes: freedom of entry is the only requirement for a competitive market to exist and, in general, it is only governments which can erect genuine barriers to entry.

### **How Markets Work - Institute of Economic Affairs**

**MARKETS AND COMPETITION** The terms supply and demand refer to the behavior of people as they interact with one another in markets. A market is a group of buyers and sellers of a particular good or service. The buyers as a group determine the demand for the product, and the sellers as a group determine the supply of the product.

wholesale fish, meat, and produce markets. Some markets are groups of people spread around the world who never meet and know little about each other but are connected through the Internet or by tele-phone and fax. Examples are the e-commerce markets and the currency markets. But most markets are unorganized collections of buyers and sellers.
