quick sketches in clay that were later fine-tuned, cast in plaster, then forged into bronze or carved in marble. Rodin's focus was on the handling of clay. One of his most famous works is a bronze sculpture called The Thinker. Rodin created a small plaster version of it in 1880 and then cast this large bronze version in 1902. About 28 ...

### **ART MASTERPIECE: The Thinker, 1902 by Auguste Rodin**

Bronze was commonly used to make sculptures in the 19th century. Creating a sculpture in bronze was a lengthy and complex process, and Rodin employed plaster casters, carvers, and bronze casters to collaborate with him to make the final sculptures. Rodin started by making drawings of live models from several different angles.
